

Material Safety Data Sheet

1. Identification of the substance and the company

1.1 Identification of the substance

Trade name

KETT

Description/Use

SCENTED SHAMPOO WITH FOAM FOR CARPETS AND MOQUETTES

1.2 Identification of the company

Company name

TINTOLAV s.r.l.

Address

Via Massimo D'Antona, 7

Postal town and country

10028 TROFARELLO (TO)

ITALY

tel. +39 011/6496827

fax +39 011/6496742

Emergency telephone number: Ospedale
Niguarda (MI), Poison prevention centre

tel. +39 02/66101029

2. Composition / Information on the ingredients

Hazardous components	CAS-No. EINECS-No. ELINCS-No.	Symbol(s)	R-phrase(s)	Concentration
ALCHIL SARCOSINATO SODI-CO	7320-34-5 230-785-7		Xi R36/38	5%<C<15%

3. Hazards identification

The preparation is not classified as dangerous under the provisions laid down in Directives 67/548/EEC and 1999/45/EC and Subsequent modifications and adjustments. The preparation, however, contain dangerous substances in concentrations To be declared in section No. 2, requires a safety data sheet with adequate information, Compliance with the Directive 91/155/CE, as amended.

4. First aid measures

Eyes: wash immediately with plenty of water for at least 15 minutes. Consult your doctor immediately.

Skin: wash immediately and thoroughly with water. Take off contaminated clothing. If irritation persists, consult your doctor. Wash contaminated clothing before you use them.

Inhalation: bring in fresh subject. If breathing is difficult consult your doctor immediately.

Ingestion: consult your doctor immediately. Getting vomiting only indication of the doctor. Do not give anything by mouth if the person is unconscious, and if not authorized by a doctor.

5. Fire-fighting measures

Cool containers to avoid decomposition of the product and the development of potentially dangerous substances to health and safety. Always wear equipment including fire protection. Means suitable fire extinguishing water, powder, CO2 ..

6. Accident release measures.

Stopping or land with inert material. Collecting most of the material and remove the residue with water jets.

7. Handling and storage

Store covered up to 40 ° C.

Ensuring the availability of equipment for cooling containers to avoid hazards from overpressure and overheating in the event of fire nearby.

8. Exposure controls / personal protection

In relation to the type of work that you need to use individual means adequate personal protection, such as:

Gloves (EN 374), apron of cloth to slow penetrability chemicals (UNI 9609/90)

Do not eat or smoke in the workplace; wash their hands before eating and at the end of the working shift. We suggest you make a health control with the frequency and mode physician's assessment.

9. Physical and chemical properties

Colour	
Smell	
Physical state	liquid
Boiling point range	100° C.
Solidification temperature range:	no data available
Flash point	>61° C DIN 51755
Ignition temperature	no data available
Auto-ignition temperature	not self-inflammable
Upper explosion limit	not applicable
Lower explosion limit	not applicable
Density at 20°C	DIN 51757
Water solubility	soluble
Viscosity at 20°C	DIN 54453
pH value at 20°C	7 DGF-H-III-1
Vapour pressure	No data available

10. Stability and reactivity

Conditions to avoid:	May form flammable/explosive vapours-air-mixture
Substances to avoid:	Strong oxidants
Hazardous reactions:	Non under normal use

11. Toxicological information

There are no known incidents of damage to health due to exposure to the product. In any case it is recommended to operate in compliance with the rules of good industrial hygiene. The preparation may, in particularly sensitive subject, cause minor health effects to exposure to and / or absorption through the skin and / or contact with eyes and / or ingestion.

12. Ecological information

Use the second best working practices, rather than disperse into the product. Notify the authorities Responsible if the product has reached watercourses or sewers or if it has contaminated soil or vegetation. Produced with biodegradable surfactants second Reg EC 648/04. Product very foaming.

13. Disposal considerations

Product:
Can be disposed of as a solid waste or burned in a suitable installation subject to the Environmental Protection (Duty of Care) Regulations 1991.
Contaminated packaging:
Dispose off properly. (Contact with waste disposal services)

14. Transport information

15. Regulatory information

Hazard symbol: None
Risk Phrases (R): None

Recommendations of prudence (S): None

Safety data sheet available on request for professional users.

Labelling of danger under Directives 67/548/EEC and 1999/45/EC and subsequent modifications and adjustments

16. Other information

PRODUCT FOR ONLY PROFESSIONAL USE IN THE LAUNDRIES.

Text of R phrases mentioned in Section 2+3

The information provided is based on our current knowledge and experience and apply to the product as delivered. Regarding the product properties, these are not guaranteed. The delivery of this safety data sheet does not free the recipient of the product from his own responsibility to follow the relevant rules and regulations concerning this product.
